Assembly

Butterfly Wings

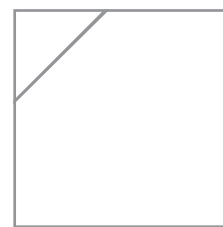

We're using a small wing in our examples, but the method for adding the butterfly wings is the same for all wing/square combinations.

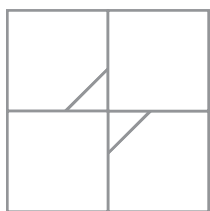

1. Place a small square (Fabric A or B) on top of a larger square (Fabrics E to M) as shown, Right Sides together. Draw a diagonal line between two opposite corners of the smaller square.

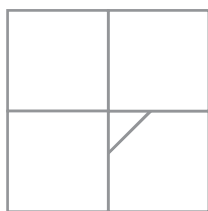

2. Sew along the marked line and trim the excess, leaving a 1/4" seam allowance.

3. Open up your work and press the seam open.

Good

No Good

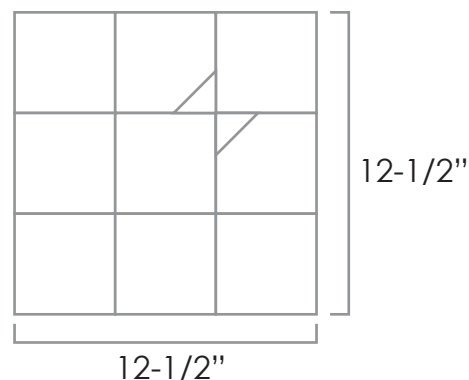

You may choose to place the butterfly wings exactly as we did, in which case you can use the quilt layout on page 1 as a guide, or you may want to place them differently. In this case, take care that each half-wing has a matching half-wing across from it when you put the blocks together.

4. Sew the 4-1/2" squares together in rows of three.

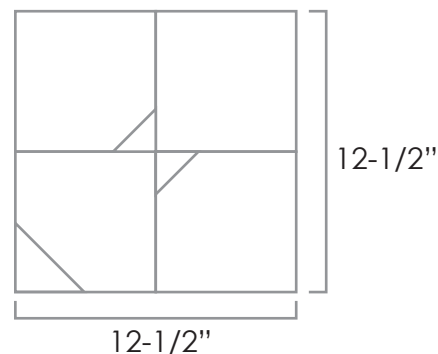

5. Assemble the 3-square rows into 3-row blocks.

Make (4) 9-square blocks, finished size 12-1/2" square.

6. Sew the 6-1/2" squares together in pairs; sew the pairs together to make 4-square blocks.

Make (4) 4-square blocks, finished size 12-1/2" square.

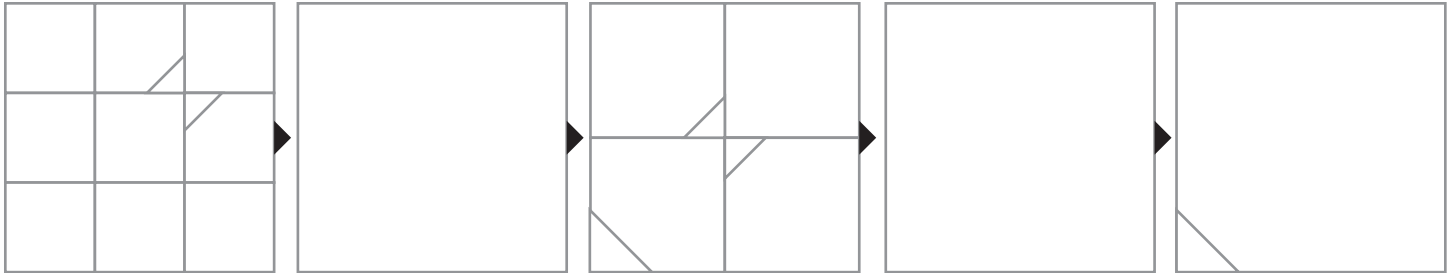

You should now have the following (30) 12-1/2" units:

(4) 9-squares composed of 4-1/2" squares.

(5) 4-squares composed of 6-1/2" squares.

(21) 12-1/2" squares.

7. Sew the 12-1/2" blocks together in rows of (5), according to the quilt layout on page 1.

8. Sew the (6) 5-block rows together to complete the center of the quilt.

Adding the Borders - please see the diagram on the following page.

9. Measure the height of the quilt center through the middle. It should be about 72-1/2" tall, but use your own measurement for a perfect fit. Cut (1) 3-1/2" wide Fabric A strip to this length and sew it to the left-hand side of the quilt center. Cut (1) 3-1/2" wide Fabric B strip to this length and sew it to the right-hand side of the quilt center.

10. Measure the width of the quilt center through the middle, including the Inner Border pieces you just attached (about 67" wide). Cut (1) 3-1/2" wide Fabric A strip to this length and sew it to the top of the quilt center. Cut (1) 3-1/2" wide Fabric B strip to this length and sew it to the bottom of the quilt center.

11. Measure the height of the quilt center through the middle, including the Inner Border - it should be about 79" tall. Cut (1) 5-1/2" wide Fabric C strip to match this height and sew it to the left-hand side of the quilt center. Cut (1) 5-1/2" wide Fabric D strip to match this height and sew it to the right-hand side of the quilt center.

12. Measure the width of the quilt, including the Outer Border strips. Cut (1) 5-1/2" wide Fabric C strip to this length and sew it to the top of the quilt. Cut (1) 5-1/2" wide Fabric D strip to this length and sew it to the bottom of the quilt.

13. Piece the two Backing panels along their long edges with a 1/2" seam.

14. Sew the 2-1/2" wide Fabric A strips together end to end for the binding.

15. Quilt and bind your work as desired.
